<i>Recipe books</i>	<i>Binoculars</i>

**\* Most of the Kitchen equipment is packed in tin trunks, and the bedding is packed in large canvas bags. A ground sheet is provided so that you can lay it out on the ground and unpack the bedding onto it, before you put it straight into the tents. This helps keep the bedding clean, thorn free and less easily dirtied and damaged. Please pack up the bedding in the same way. In the mean time you can use the ground sheet to picnic on, sit on, and laze on during the day.**
